

I. Features of the MYLAB module integrated into the medical practice software

1. Integrated module for all medical practice software

- Multi-criteria search by surname, first name, date of birth and CNS number
- Automatic creation of the patient in MYLAB from the practice software

2. Electronic prescription

- Prescription by customisable profiles
- Real-time display of nomenclature rules (non-cumulation, HN procedures, prior agreements)
- Automatic completion of additional forms (NHA and patient consent)
- Archiving the prescription in the medical practice software
- Transmission to the CSP

3. Blood test appointment

- <https://www.bionext.lu/rdv>

4. Results server

- Real-time display (partial, complete, disrupted, urgent, history, comparison, inter-analysis)
- Structured results in pdf format that can be integrated into practice software

5. Notifications

- Customisable alerts on disrupted results
- Push notification on the smartphone
- Notification in the medical practice software
- Notification of hardware failures

6. Analysis catalogue

- Dictionary of analyses and synonyms (sampling and reimbursement conditions)
- HN rates
- Pathophysiological variations

7. Appointment for a medical consultation

- Via Doctena

8. Map of BIONEXT sampling centres

- Opening hours, geolocation, map and access route
- PRM access, paediatrics, parking and fertility

9. Videos

- MYLAB Online Tutorials
- Ongoing training
- Scientific communication

10. Download

- Consent form, prior agreement form NHA, standard order
- Scientific newsletters

11. Information sharing

- Echange en ligne avec le patient et avec des confrères

II. How to access MYLAB Doctor?

1 ACCOUNT CREATION AND PASSWORD MANAGEMENT

- Log on to the website www.bionext.lu and click on «MYLAB Space».
- Follow the link «Activate my account»
- Enter the MYLAB key and password that were sent to you by email
- Enter your email address and a new password to activate your account (*minimum 6 characters*)
- Fill in your professional information and complete your profile
- You can now log in with your email address and password in your practice software or directly on the website
- If you forgot: reset your password on the MYLAB homepage

2 ELECTRONIC PRESCRIPTION

- From your medical practice software or the website www.bionext.lu by clicking on «MYLAB space»
- Search for your patient by name, date of birth or social security number or create a new patient
- Click on «Prescribe»
- Select the tests to be performed using the online test catalogue. Non-Bill of Materials prices are displayed.
- Enter the administrative details of the prescription
- Validate and generate a PDF of your prescription as well as all the documents necessary for the patient's care
- Schedule a blood test for your patient via the mobile and toll-free service, PICKEN DOHEEM.

3 ACCESS YOUR RESULTS

- From your medical practice software or the website www.bionext.lu by clicking on «MYLAB Space».
- Via the iOS and Android compatible MYLAB app
- Search for your patient, by name, date of birth or social security number and access the records and their history
- Search by file number or date
- Generate a PDF and print the report
- Integrate the results into your practice software
